Sickness and Misery Result From Cleaged Ecowels in Hes Westler.

People advancing in years should be very careful of their health during the hot months, as heat has a very enervating and weakening effect on them. One has only to look at the daily list of fatalities to elderly people reported by the papers to realize that these are the hardest months for them to overcome.

The easily digested foods should be eaten, and then only sparingly, and stocholic beverages and feed things should be avoided as much as possible. Exercise should be taken daily in the shade. Most important of all in the maintenance of health and vigor at this time is to avoid constipation with its accompanying headaches and muscular and blood congestion. This is accomplished by the timely use of a gentle laxative like Dr. Caldwell's Syrup Pepsin. It is the ideal laxutive for elderly people, as it is mild, tastes pleasant and does not gripe. Best of all, it contains valuable tonic en the system.

Elderly people should avoid strong physics, cathartics, purgatives, salts and pills, as they are a shock to the ple bottle can obtain it, postpaid, by people like Mrs. C. J. Nicholas, 2010 Washington St., Monticelio, Ili.
